

Advantages Of Water Filter Pitcher

- Creates silky-smooth and great tasting water that is refreshing to drink and cook with.
- Helps filter out chlorine and other contaminants and permanently absorbs metals such as lead and copper, so your drinking water will be more refreshing and clear.
- Reduces lime scale, prolong the domestic appliance life by preventing limescale.
- Increases active hydrogen.
- Offers pH 8.5-10.0 to help support systemic pH balance in the body. (Typically increases pH by 2 or more points).
- Provides low negative ORP:-100mv. This transforms ordinary water into rich antioxidant water to help energize and revitalize your body.
- Reduces water molecule size to create more absorbable water and increase hydration.
- Increases the alkalinity to make your drinking water more vital.

2 colors are available

Components

- ① Filter cartridge life indicator
- ② Lid
- ③ Replaceable filter cartridge
- ④ Funnel reservoir
- ⑤ Pitcher with measuring scale

Technical Specifications

- Digital indicator showing cartridge life
- Streamlined contemporary design with contoured handle-easy to lift and pour
- Capacity:3.5L
- Cartridge life:300 litres water(saving purchase of bottled drinking water)
- Pitcher material:AS
- Lid, funnel and handle material:ABS
- Cartridge housing material:pp
- Cartridge Media: Active Carbon, Ion Exchange Resin,Negative Potential Particles, Natural Bio Minerals

Alkaline Water Filter Pitcher

Immediately Use,making Your Life More Healthy.

How To Program The Electronic Cartridge Life Indicator

- 1.1 Press the button and hold it down for a few seconds until the symbols appear on the screen. Once you release the button, the blinking symbol of users appears on the screen.
- 1.2 Now you can set the number of users by pressing the button. Press the button twice quickly, then press the button to choose the number of users, release the button until the desired number of users appears in the display.
- 1.3 Once you set the number of users, press the button and hold it down for several seconds until the symbol of the cartridge appears in the display. The indicator is now activated.

Note: The indicator switches off if the button is not pressed within 30 seconds before the timer is programmed. If this occurs, please repeat the steps 1.1-1.3

Knowing when to replace the filter cartridge

When the blinking warning symbol ("X") appears on the cartridge image in the display, it means that the filter cartridge should be replaced within one week. As the week passes all symbols on the screen start blinking reminding you that filter cartridge life has expired. Replace the filter cartridge at this time.

Remarks: The filter service filter as following: 1 user 80days, 2 users 60days, 3 users 40days, 4 users 30days

Instructions & Easy Set Up Guide

- 2.1 Clean the funnel reservoir and pitcher in the dishwasher or by hand using a mild detergent.
- 2.2 The lid must not be washed in the dishwasher. Clean the lid with a soft damp cloth by hand.
- 2.3 Remove the filter from its package and soak the cartridge in cold water for 15 minutes. Then screw the cartridge firmly into the base of the funnel reservoir.
- 2.4 Place the funnel reservoir into the top of the pitcher.
- 2.5 Fill the funnel reservoir with cold water and wait until the water in the funnel reservoir has filtered into the pitcher.
- 2.6 Please allow up to 15 minutes for the water to filter through to clean and activate the filter cartridge. Discard this water. Repeat step 2.5 twice to rinse away any loose activated carbon particles and prepare the new cartridge for using.
- 2.7 When filling the alkaline antioxidant water pitcher, do not place the filter cartridges opening directly under the running water.
- 2.8 The pitcher should periodically be cleaned with mild soapy water and dry with a soft cloth. Please ensure that the filter cartridge is removed prior to cleaning.
- 2.9 In order to preserve the life of the filter cartridge, it should always stay in contact with water, so we suggest the pitcher is filled overnight and the water discarded in the morning.

Easy set up Guide

- 3.1 Hand-wash pitcher, funnel and lid with a mild detergent. Do not use abrasive cleaners. Rinse well. Remove the wrapper and clean the surface of the filter cartridge. Immerse the cartridge in cold water and shake it gently to remove any air bubbles. Discard the used water. 
- 3.2 Insert the cartridge into the pitcher. Place the cartridge into the hollow of the funnel and push downwards until it 'clicks' firmly place. 
- 3.3 Fill the funnel reservoir with cold water up to the brim and wait until the water in the funnel reservoir is filtered into the pitcher. Let it Soak for 15 minutes. 
- 3.4 Repeat 'STEP 2.5' two times and discard the filtered water as this will rinse away any loose activated carbon particles and will prepare the filter cartridge for use. 

How To Replace The Filter Cartridge

- 4.1 Take out the used filter cartridge from the base of the funnel reservoir and discard.
- 4.2 Rinse the pitcher parts carefully.
- 4.3 Insert the new filter cartridge into the base of the funnel reservoir and repeat steps 2.1-2.5 of set up guide.
- 4.4 Keep your new replacement cartridges in their original packaging until use and store in a dry, cool place.
- 4.5 The filter cartridges should be replaced every 200-300 liters or every 6-8 weeks of regular daily use.
- 4.6 Re-set and re-activate the indicator as before. You can easily change the number of users by entering the users' setting mode: quickly double press the button, then repeat steps 1.2 and 1.3. When the number of users is changed, the cartridge life is recalculated automatically.

Notice

- 5.1 Do not pour carbonated drinks, milk, coffee, tea or other similar liquids in to the Alkaline Water pitcher when the cartridge is in place. Doing so may reduce or destroy the cartridge filter properties.
- 5.2 Do not use in the microwave or heat on a stove. Please store on a cool, dry place.
- 5.3 If you are not accustomed to Alkaline Water, please go slowly in order to allow time for your body to adjust.
- 5.4 Don't use the alkaline water filter for infants.
- 5.5 Patients with heart issues, allergy and stomach problems should consult with their physician before using the alkaline water filter pitcher.
- 5.6 If any unusual symptoms or heavy detox symptoms arise please stop use and consult with your physician. Replacement water filter cartridges are available from the following online store.
